

Edmore Public School  
706 Main St, Edmore, ND 58330

**Physical Science Lesson Plans for  
August 29 – September 2, 2022  
1<sup>st</sup> Hour, 8:40 – 9:32 AM**

	Monday (Aug 29)	Tuesday (Aug 30)	Wednesday (Aug 31)	Thursday (Sept 1)	Friday (Sept 2)
<b>Performance Standards</b>	<b>HS-PS3-3</b> Design, build, and refine a device that works within given constraints to convert one form of energy into another form of energy.	<b>HS-PS3-3</b> Design, build, and refine a device that works within given constraints to convert one form of energy into another form of energy.	<b>HS-PS3-3</b> Design, build, and refine a device that works within given constraints to convert one form of energy into another form of energy.	<b>HS-PS3-3</b> Design, build, and refine a device that works within given constraints to convert one form of energy into another form of energy.	<b>HS-PS3-3</b> Design, build, and refine a device that works within given constraints to convert one form of energy into another form of energy.
<b>Topic</b>	Laboratory Safety Procedures	Scientific Method – Day 1	Scientific Method – Day 2	Scientific Method – Day 3	Scientific Method – Day 4
<b>Objectives</b>	<ul style="list-style-type: none"> <li>• Explain why someone should study science even if not planning to become scientist</li> <li>• summarize the steps that should be taken if an accident occurs in the lab</li> </ul>	<ul style="list-style-type: none"> <li>• Explain how scientific thought can be put into practice</li> <li>• Summarize the process that scientists often use when beginning scientific investigations</li> </ul>	<ul style="list-style-type: none"> <li>• Explain how scientific thought can be put into practice</li> <li>• Summarize the process that scientists often use when beginning scientific investigations</li> </ul>	<ul style="list-style-type: none"> <li>• Explain how scientific thought can be put into practice</li> <li>• Summarize the process that scientists often use when beginning scientific investigations</li> </ul>	<ul style="list-style-type: none"> <li>• Explain how scientific thought can be put into practice</li> <li>• Summarize the process that scientists often use when beginning scientific investigations</li> </ul>
<b>Bellringer</b>	(3 min) Chemistry	(3 min) Scientific method	(3 min) independent variable, dependent variable	(3 min) hypothesis	(3 min) vocabulary quiz
<b>Procedure/ Instructional Delivery</b>	<ul style="list-style-type: none"> <li>○ Why study science?</li> <li>○ Identifying safe and unsafe lab practices</li> <li>○ Direct instruction: lab safety expectations and classroom equipment</li> <li>○ Guided practice: classroom safety review</li> <li>○ Independent practice: student vision of lab safety</li> <li>○ Assignment: Student lab safety contract</li> </ul>	<ul style="list-style-type: none"> <li>○ Project introduction</li> <li>○ Engage: watch F1 car videos at <a href="https://www.youtube.com/watch?v=I522EMW89sE">https://www.youtube.com/watch?v=I522EMW89sE</a></li> <li>○ Demonstration: Balloon-powered car</li> <li>○ Explore: Use scientific method in making Balloon-powered car</li> <li>○ Close: Summarizing activity</li> </ul>	<ul style="list-style-type: none"> <li>○ Explore: Use scientific method in making a Balloon-powered car (construction)</li> <li>○ Close: Summarizing activity</li> </ul>	<ul style="list-style-type: none"> <li>○ Explore: Use scientific method in making a Balloon-powered car (test, redesign, and retest)</li> <li>○ Close: Summarizing activity</li> </ul>	<ul style="list-style-type: none"> <li>○ Explore: create a PowerPoint presentation of the activity</li> <li>○ Reflect: Analyze and Draw Conclusions</li> <li>○ Close: self-assessment</li> </ul>

<b>Assessment</b>	Independent practice	Rubric for Balloon-powered car	Rubric for Balloon-powered car	Rubric for Balloon-powered car	Rubric for balloon-powered car
Remarks
